

Chair : Kazumasa Saigoh
Kindai University, Department of Clinical Genetics

Commentator : Yoshiyuki Mitsui
Kindai University Faculty of Medicine Center for General Medical
Education and Clinical Training

LB-1 USP10 promotes aggresome formation to induce α -synuclein aggregation
and Lewy body but not GCI

Masahiro Fujii
Department of Neurology and Neurological Science, Tokyo Medical and Dental University

LB-2 A rational, multi-spectrum mapping algorithm for primary motor cortex:
a primary step before cortical stimulation

Shuichiro Neshige
Department of Clinical Neuroscience and Therapeutics, Hiroshima University Graduate School of
Biomedical and Health Sciences

LB-3 Intrathecal Onasemnogene Apeparvovec Gene-Replacement Therapy for
Spinal Muscular Atrophy Type 2

Bryan E. McGill
AveXis, Inc.

LB-4 Investigator-initiated RCT on IV alteplase at 0.6mg/kg for unclear-onset stroke:
THAWS

Kazunori Toyoda
National Cerebral and Cardiovascular Center

LB-5 Investigator-Initiated Clinical Trial of Bosutinib in ALS: iPSC-based Drug
Repurposing for ALS Medicine (iDReAM)

Keiko Imamura
Center for iPSC Cell Research and Application (CiRA), Kyoto University

LB-6 Characteristics of DWI patterns in patients with different embolic stroke
mechanism and ESUS

Yasumasa Yamamoto
Kyoto Katsura Byouin
