

StO-01-1 Analysis of factors enabling the prognosis prediction in MCI patients using a simple questionnaire

Takumi Matsuo
Kyoto Prefectural University of Medicine, Japan

StO-01-2 An autopsy case of PERM initially mimicking with brainstem encephalitis

Ryutaro Nakamura
Department of Neurology, Shiga University of Medical Science, Japan

StO-01-3 Clinical features of myasthenia gravis in our hospital

Moemi Sato
Toyota Kosei Hospital, Japan

StO-01-4 Evaluation of the clinical significance of Patrick signs for diagnosis of lumbar radiculopathy

Tomohiro Shogase
Department of Neurology, Kochi Medical School, Kochi University, Japan

StO-01-5 Clinical features of stroke like episodes in MELAS

Hitomi Satou
Department of Neurology, Internal Medicine, National Defense Medical College, Japan

StO-01-6 Antiviral treatment for progressive multifocal leukoencephalopathy complicated with Good syndrome

Masahiro Mimori
the Jikei university school of medicine department of neurology, Japan

StO-01-7 Cerebrospinal fluid hypovolemia not always positional headache at the onset

Tomoko Yamaguchi
saitama medical university hospital, Japan

StO-01-8 The yips in Japanese archery: types, frequency and risk factors

Seiichiro Nishio
Gifu University School of Medicine, Japan

Poster Presentation Award Session (StO-01-9 ~ StO-01-14)

★ **StO-01-9** Comparison of gray matter atrophy between Japanese and German patients with multiple sclerosis

Yoshikazu Chishiki
Chiba University School of Medicine

★ **StO-01-10** Dendritic spine abnormalities of pyramidal neurons in a model mice of autism

Takahiro Tanaka
School of Medicine, Juntendo University, Japan / Research Institute for Diseases of Old Age, Graduate School of Medicine, Juntendo University, Japan

-
- ★ **StO-01-11** Global small vessel burden and functional prognosis after rt-PA and/or thrombectomy: HAGAKURE study
 Shyohei Ono
 Division of Neurology, Department of Internal Medicine, Saga University Faculty of Medicine, Japan
-
- ★ **StO-01-12** Early Fast-Acting Treatment Strategy against Generalized Myasthenia Gravis
 Yukako Fujiwara
 Faculty of Medicine, The Jikei University School of Medicine, Japan
-
- ★ **StO-01-13** Evaluation of lumbar nerve root by MR neurography in the patients with CIDP
 Eimi Katou
 Tokai University school of medicine, Department of Neurology, Japan
-
- ★ **StO-01-14** A study of chronic inflammatory demyelinating polyneuropathy-focal type
 Kentaro Matsumoto
 St.Mary's Hospital resident, Japan

StO-02 Students and Junior Residents Oral Session 02

Jp

StO-02-1 A 14-year-old woman with vertebrobasilar artery dissection
 Hiroki Maesaka
 Toyama University Hospital

StO-02-2 Delayed white matter lesion after mechanical thrombectomy of right middle cerebral artery occlusion
 Takumi Ikeda
 The Jikei University Hospital

StO-02-3 Prognosis of Trousseau syndrome in our hospital
 Mariko Takeshige
 Toyota Kosei Hospital Department of Neurology

StO-02-4 Lewy body disease co-occurrence was suggested by MIBG scintigraphy in a case of PSP-Parkinsonism
 Shoko Himeiwa
 Department of Neurology, The Jikei University Katsushika Medical Center

StO-02-5 Various ocular manifestations and magnetic resonance imaging abnormalities in giant cell arteritis
 Takahide Takii
 National Hospital Organization Sendai Medical Center

StO-02-6 A male in his early thirties with Bickerstaff brainstem encephalitis successfully treated with IVIG
 Kiriha Kuwano
 Saitama Medical Center Jichi Medical University Department of Neurology

StO-02-7 The diversity of Mikulicz disease in elderly patients

Kie Maita

Tokai University School of Medicine Department of Neurology

StO-02-8 Pes cavus caused by S1 radiculopathy in a 40s woman

Tatsushi Kokubu

The jikei University Katsushika Medical Center

StO-02-9 A case of CIDP in which somatic sensory evoked potential (SSEP) and nerve root ultrasound is useful

Hiroyuki Kida

The Jikei university of School of medicine, Department of Neurology

StO-02-10 A case of cryptococcal meningitis treated with ommaya reservoir

Koki Yoshizawa

Chiba Aoba Municipal Hospital

StO-02-11 Reversible cerebral vasoconstriction syndrome triggered by Typhoon Hagibis: Report of two cases

Shugo Fujita

Department of Neurology and Cerebrovascular Medicine, Saitama Medical University
International Medical Center

StO-02-12 Tests of taste and odor for 4 cases of limbic encephalitis

Soko Komura

Yamagata University, Faculty of Medicine

StO-02-13 Psychological assessment for various encephalopathy using baum test

Haruto Shibata

Department of Neurology, Toyokawa City Hospital

StO-02-14 Clinical Features of Disequilibrium in the Emergency Department

Takashi Jono

Yokohama Rosai Hospital The Department of Neurology

StO-02-15 The clinical findings of in-patients with influenza in department of neurology

Yuki Okada

Takamatsu Red Cross Hospital

StP-01 Students and Junior Residents Poster Session 01

Jp • En

Poster Presentation Award Session

★ StP-01-1 Neuroprotective effects of SMTP-44D in mice stroke model

Haibo Yu

Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama University,
Okayama, Japan

-
- ★ **StP-01-2** **Changes in ubiquitin-proteasome system and autophagy pathways in mice stroke model**
Xiao Hu
 Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama University, Okayama, Japan, Japan
-
- ★ **StP-01-3** **LRRK2-mediated Rab GTPase phosphorylation regulate glucose metabolism in the adipocytes**
Motoki Imai
 Department of Regulation Biochemistry, Graduate School of Medical Sciences, Kitasato University, Japan
-
- ★ **StP-01-4** **The role of chondroitin sulfate proteoglycans in neural stem cell differentiation**
Tatsuki Ono
 School of Medicine, Juntendo University, Japan / Research Institute for Diseases of Old Age, Graduate School of Medicine, Juntendo University, Japan
-
- ★ **StP-01-5** **Benefits of Edaravone for Alzheimer's Disease With Chronic Hypoperfusion in a Novel Mouse Model**
Tian Feng
 Department of Neurology, Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama University, Japan
-
- ★ **StP-01-6** **Prion-like propagation of mutant superoxide dismutase-1protein in ALS-like disease in dogs**
Nana Tanaka
 Laboratory of Veterinary Clinical Radiology, Joint Department of Veterinary Medicine, Faculty of Applied Biological Sciences, Gifu University, Japan
-
- ★ **StP-01-7** **Clinical features of patients with endovascular recanalization for vertebrobasilar artery occlusion**
Hiroya Watanabe
 Department of Neurology and Stroke Treatment, Kyoto First Red Cross Hospital, Japan
-
- ★ **StP-01-8** **Functional analysis of SPG (Spastic paraplegia) 55 causative gene C12orf65**
Keyoumu Nazere
 Department of Clinical Neuroscience and Therapeutics, Hiroshima University Graduate School of Medical Sciences, Japan
-
- ★ **StP-01-9** **Association between initial symptoms and disease progression rates in the patients with HAM/TSP**
Hanako Mayumi
 Department of Neurology and Geriatrics, Kagoshima University Graduate School of Medical and Dental Sciences, Japan
-
- ★ **StP-01-10** **The effect of age at onset on cerebral cortical thinning in patients with Parkinson's disease**
Yuta Sakasai
 Department of Neurology, Saitama Medical University, Saitama, Japan, Japan

- StP-02-1** Abnormality of corpus callosum in Sulf1/2 deficient brain evaluated by diffusion tensor imaging
Yusuke Tsuji
Juntendo University Graduate School of Medicine, Japan
-
- StP-02-2** Acute Anti-Inflammatory Markers ITIH4 and AHSG in a Novel Alzheimer's Disease Mice Model
Zhihong Bian
Department of Neurology, Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama University, Kitaku, Okayama, Japan, Japan
-
- StP-02-3** A 74-year-old woman with posterior spinal artery infarction without abnormal signals on acute MRI
Toshifumi Chino
Jikei University Third Hospital, Japan
-
- StP-02-4** Clinical features and prognosis of spinal cord infarction in this hospital
Hiroki Kohda
Niigata pref. cent. hosp., Japan
-
- StP-02-5** Usefulness of Ophthalmic Artery Doppler Imaging in A Case of Fluctuating Ocular Ischemic Syndrome
Toshiya Fukushima
The Jikei University School of Medicine, Faculty of Medicine, Japan
-
- StP-02-6** Deep gray matter lesions on MRI in patients with lymphomatosis cerebri
Sawako Sakai
Department of Neurology, JA Toride Medical Center, Japan
-
- StP-02-7** Clinical and cerebrospinal fluid features of Alzheimer's disease with cerebral microbleeds
Yusuke Kido
School of Medicine, Chiba University, Japan
-
- StP-02-8** Epidemiological survey of microhemorrhage in Alzheimer's disease and Mild Cognitive Impairment
Shunya Shiohira
School of medicine, Chiba University, Japan
-
- StP-02-9** Comparison of 3 cases of neuronal intranuclear inclusion disease
Saki Kotani
Resident, Saiseikai Shiga Hospital, Japan

- StP-03-1** Neuronal intranuclear inclusion disease presenting with nonconvulsive status epilepticus
Kei Oiwa
Japan red cross Asahikawa hospital
-
- StP-03-2** Association of cardiac MIBG uptake with nigrostriatal degeneration in de novo Parkinson's disease
Hiroka Yoshikawa
Department of Neurology, The Jikei University School of Medicine
-
- StP-03-3** Overactive bladder in Parkinson's disease is associated with orthostatic hypotension
Masakazu Ozawa
The Jikei University School of Medicine Department of Neurology
-
- StP-03-4** Examine the efficacy of LCIG for patients with PD
Tsuyoshi Myougasako
Department of Neurology and Geriatrics, Kagoshima University Graduate School of Medical and Dental Sciences
-
- StP-03-5** Cooperation between neurologists and non-neurologists in ALS in OtaTatebayashi health care zone
Reika Maeda
OTA MEMORIAL HOSPITAL
-
- StP-03-6** lymphoplasmacyte-rich meningioma associated with hypertrophic cranial pachymeningioma
Tsugumi Iwasaki
THE JIKEI UNIVERSITY SCHOOL OF MEDICINE
-
- StP-03-7** A case of seronegative NMOSD with difficulty in withdrawal from ventilator
Syuhei Takasawa
Department of Neurology, Toyama University Hospital
-
- StP-03-8** Clinical features of inflammatory myopathy with anti-signal recognition particle (SRP) antibodies
Yuri Furuyama
Department of Neurology Nagaoka Red Cross Hospital
-
- StP-03-9** Clinical features of Guillain-Barré syndrome in dialysis patients
Kunihiro Ueda
Department of Neurology, Mitsui Memorial Hospital
-
- StP-03-10** Complicated streptococcal infection in multiple organs including central nervous system
Mari Fujiwara
Department of Neurology, Azumino Red Cross Hospital
