

Chair : Toshiki Mizuno
Department of Neurology, Kyoto Prefectural University of Medicine

LB-1 Porphyrins ameliorate SCA36 GGCCTG repeat expansion-mediated cytotoxicity

Kimitoshi Hirayanagi
Department of Neurology, Gunma University Graduate School of Medicine

LB-2 Results Of A Randomized Clinical Trial of Ropinirole Hydrochloride For ALS (ROPALS) Based On iPS Cell Drug Discovery

Shinichi Takahashi
Department of Physiology, Keio University School of Medicine

LB-3 Systemically administered DNA/RNA heteroduplex oligonucleotides achieve blood to brain delivery and efficient gene knockdown in the CNS

Tetsuya Nagata
Tokyo Medical and Dental University
