

Oral Presentation Award Session

Chair : Susumu Kusunoki
Japan Community Health care Organization (JCHO)

- 22
- ★ StO-01-1 The impact of neuronal aging on APP processing in primary cultures of mouse cortical neurons
Yosuke Hishida
Kyoto University Hospital Neurology, Japan
- ★ StO-01-2 Changes in serial CSF IgG index in herpesvirus meningoencephalitis
Mao Asakura
Fujita Health University School of Medicine, Japan
- ★ StO-01-3 In vivo assessment of the expression of α -synuclein proteins in disruption of autophagy induction
Kanakano Mae
Osaka Medical and Pharmaceutical University Hospital, Japan
- ★ StO-01-4 Analysis of the mechanism of α -synuclein release stimulated by depolarization
Tomotaka Fukuse
Osaka Medical and Pharmaceutical University Hospital, Japan
- ★ StO-01-5 Fatty acid-binding protein 3 is critical to take up alpha-synuclein fibrils in dopamine neurons
Tomoki Sekimori
Department of Pharmacology, Graduate School of Pharmaceutical Sciences, Tohoku University, Japan
- ★ StO-01-6 Yips in Kyudo (Japanese archery): prevalence, classification, and risk factors
Seiichiro Nishio
Gifu University School of Medicine, Japan

Chair : Jun-ichi Kira
Department of Neurology, Brain and Nerve Center, Fukuoka Central Hospital /
Translational Neuroscience Center, Graduate School of Medicine, International
University of Health and Welfare

- StO-02-1 The effect of early resection and immunotherapy for teratoma-related opsoclonus-myoclonus syndrome
Makoto Matsui
Department of Neurology, Shiga university of medical science, Japan

-
- StO-02-2** A case of Anti-AQP4 antibody-positive NMOSD developed in Wallenberg syndrome
Hiroki Ito
the Integrated Clinical Education Center, Kyoto University Hospital, Japan
-
- StO-02-3** Anti-Kv1.4 antibody-positive refractory myasthenia gravis crisis: a case report
Ryutaro Ohashi
Department of Neurology, the Jikei University School of Medicine, Tokyo, Japan
-
- StO-02-4** A case of anti-MuSK antibody-positive systemic myasthenia gravis
Kazuki Yamada
Obihiro-Kosei General Hospital, Japan
-
- StO-02-5** Prognostic impact of thymectomy in nonthymomatous myasthenia gravis case series
Akiko Ichiyanagi
Division of Neurology, Kobe University Graduate School of Medicine, Japan
-
- StO-02-6** Circular walking and multitask conditions unveil gait disturbance in multiple sclerosis
Qingmeng Chen
Tokyo Medical and Dental University, Japan
-
- StO-02-7** Aseptic meningitis with cerebral parenchymal lesions suggesting acute disseminated encephalomyelitis
Hiroaki Tanaka
Department of Neurology, Shizuoka General Hospital, Japan
-
- StO-02-8** A case of Leber's hereditary optic neuropathy with gadolinium enhancement of optic nerve on MRI
Akinobu Hori
Department of Neurology, Kyoto University Hospital, Japan
-
- StO-02-9** Effect of intravenous methylprednisolone to exacerbation in hematologic malignancies-associated PML
Ayami Tano
Department of Neurology, Shiga University of Medical Science, Japan
-
- StO-02-10** Two cases of genetic Creutzfeldt-Jakob disease(CJD) with the M232R mutation
Tomohiro Fujioka
Higashiosaka City Medical Center, Japan
-
- StO-02-11** case report : catatonic syndrome caused by atrophic gastritis and vitamin B12 deficiency
Sakurako Arafuka
Kyoto university hospital, Japan

Chair : Ryuji Kaji
National Hospital Organization Utano Hospital

StO-03-1 Analysis of factors predicting the development of Alzheimer's disease using a simple questionnaire

Kazuki Hashimoto
Faculty of Medicine, Kyoto Prefectural University of Medicine, Japan

StO-03-2 Analysis of diagnostic accuracy of I23I-IMP SPECT in patients who underwent amyloid PET analysis

Mai Yamazoe
Faculty of Medicine, Kyoto Prefectural University of Medicine, Japan

StO-03-3 Change of Electrodes Placement after Deep Brain Stimulation Surgery in Parkinson's disease

Yukari Terashita
Resident, Kyoto University Hospital, Japan

StO-03-4 Posterior reversible encephalopathy syndrome in a patient with CADASIL

Rikuya Ukawa
Kyoto Prefectural University of Medicine, Japan

StO-03-5 Focal Pontine Infarct presenting as Cheiro-oral-pedal Syndrome: a case report

Sachiho Saito
The Jikei University of Medicine, Japan

StO-03-6 Questionnaire survey of patients with advanced stage of HMSN-P

Yuki Yorishima
Initial Residents, St. Mary's Hospital, Japan

StO-03-7 Analysis of two cases of late-onset Creutzfeldt-Jakob disease associated with Alzheimer's disease

Shiori Kuwagaki
Department of Neurology and Geriatric Medicine, Graduate School of Medicine, Ehime University, Japan

StO-03-8 Repeated brain images help diagnose the cerebral venous thrombosis: a case report

Akihiro Matsuda
Kyoto University Hospital Neurology, Japan

StO-03-9 Discussion on Urinary Disturbance in Neuronal Intranuclear Inclusion Disease

Hiroki Tanaka
Department of Neurology, Kyoto University Hospital, Japan

Chair : Yoshikazu Ugawa
Department of Human Neurophysiology

- StO-04-1** Temporal evaluation of muscular sarcoidosis with ultrasonography
Takuya Katayama
Department of Neurology, Tenri Hospital, Japan
- StO-04-2** A case of dropped head after radiation therapy with high intensity of paraspinal muscles on MRI-STIR
Ryoichi Inoue
Department of Neurology, Kyoto University Hospital, Japan
- StO-04-3** Hereditary ATTR amyloidosis that was difficult to diagnose without amyloid deposits on nerve biopsy
Daiki Hashimoto
Kyoto University Hospital, Japan
- StO-04-4** Status epilepticus with hyperuricemia and acute kidney injury responded to CHDF and steroid pulse
Ayako Kawatake
Kyoto University Hospital, Japan
- StO-04-5** Temporal epilepsy with anti-leucine-rich glioma-inactivated 1 protein receptor antibody
Yurika Terasawa
The Jikei University School of Medicine, Japan
- StO-04-6** A medically refractory case of aphasic status epilepticus due to cryptococcal meningoencephalitis
Ryota Kitano
Department of Neurology, Kobe University Graduate School of Medicine, Japan
- StO-04-7** ECoG analysis during smartphone operation under natural behavior
Motoki Nakae
Department of Neurology, Faculty of Medicine Kyoto University, Japan
- StO-04-8** Study a relationship between taste or olfactory impairment and limbic encephalitis with 4 cases
Soko Komura
Yamagata University, Faculty of Medicine, Japan

Poster Presentation Award Session

- ★ StP-01-1 Prognostic factors associated with poor outcome in the patients with branch atheromatous disease
Keiyo Watanabe
Japanese Red Cross Society Kyoto Daiichi Hospital, Japan
- ★ StP-01-2 Clinical assessments of seven patients with probable pure spinal multiple sclerosis
Wataru Takeuchi
Tohoku Medical and Pharmaceutical University, Japan
- ★ StP-01-3 Intracranial arterial lesions of ischemic stroke patients with RNF 213 variants
Saki Hanafusa
Kyoto prefectural university of medicine, Japan
- ★ StP-01-4 Analysis of factors that affect the seeding activity and cytotoxicity of alpha synuclein aggregates
Souta Uemura
Kyoto University School of Medicine, Japan
- ★ StP-01-5 Vascular risk factors and Physical function in Alzheimer disease
Akito Tsugawa
Department of Geriatric Medicine. Tokyo Medical University, Japan
- ★ StP-01-6 Retrospective analyses of neurological findings and lesions in anti-MOG antibody-associated disease
Misaki Uemura
Yamagata University Faculty of Medicine School of Medicine, Japan
- ★ StP-01-7 The effects of perampanel on EEG with progressive myoclonus epilepsy: posterior dominant rhythm
Hiroki Bando
Medical faculty, Kyoto University, Japan

StP-02 Students and Residents Poster Session 02

- StP-02-1 A case of double seronegative myasthenia gravis for which selective plasma exchange was effective
Sumire Nunomura
Department of Neurology, Hokkaido Medical Center, Japan
- StP-02-2 withdrawn

StP-02-3 A case of suspected ALS that showed gadolinium enhancement of the lumbar roots

Takaaki Yakushigawa
Faculty of Medicine, Kyoto University, Japan

StP-02-4 Clinical features of autoimmune brainstem encephalitis with micrographia

Mayura Sukegawa
Department of Neurology, Brain Research Institute, Niigata University, Japan

StP-03 Students and Residents Poster Session 03

Jp

May 22 (Sat) 13:20 ~ 14:00

Room 15 (ICC Kyoto 1F New Hall)

StP-03-1 Elderly Refractory Status Epilepticus Caused by PRES Following Takayasu's Arteritis: A Case Report

Yuki Omagari
Japanese Red Cross Wakayama Medical Center, Japan

StP-03-2 An elderly case of bulbar-onset ALS who experienced a delay in establishing the diagnosis

Yuri Murakami
Division of Neurology, Kobe University Graduate School of Medicine, Japan

StP-03-3 The beneficial effect of short-chain fatty acid receptors on the Parkinson's disease mice model

Shiori Tanase
Nagoya university graduate school of medicine, Japan

StP-03-4 Evaluation of subcortical nuclei with quantitative susceptibility mapping in multiple system atrophy

Kazuma Shinno
Faculty of Medicine, Kyoto University, Japan

StP-03-5 Disturbance of taste and smell in the patients with dementia

Chie Yamakawa
Division of Neurology and Clinical Neuroscience, Department of Internal Medicine 3rd, Yamagata University School of Medicine, Japan

StP-04 Students and Residents Poster Session 04

Jp

May 22 (Sat) 13:20 ~ 14:00

Room 15 (ICC Kyoto 1F New Hall)

StP-04-1 A case of HTLV-1 associated myelopathy with upper limb dystonia

Tomoki Ishimaru
Department of Neurology, Japanese Red Cross Asahikawa Hospital, Japan

StP-04-2 A case of bilateral eye movement disorder due to unilateral facial herpes zoster

Yuta Nakadoi
Kofu Kyoritsu Hospital, Japan

StP-04-3 Comparison of three cases of Creutzfeldt-Jakob disease

Ce Xie

Department of Neurology, Graduate School of Medicine, Kyoto University, Japan

StP-04-4 Superior sagittal sinus thrombosis due to protein C deficiency

Haruka Tsutsumi

Clinical training center, St Marianna University School of Medicine, Japan

StP-04-5 Resistant factors of anticoagulation therapy in acute ischemic stroke patients with cancer

Rikuto Ito

Akita University Faculty of medicine, Japan

StP-05 Students and Residents Poster Session 05

Jp

May 22 (Sat) 13 : 20 ~ 14 : 00

Room 15 (ICC Kyoto 1F New Hall)

StP-05-1 A case of conversion disorder presenting muscle weakness and arthralgia after relocation

Hirokazu Matsunaga

Department of Neurology, Kyoto University Hospital, Japan

StP-05-2 Awareness of telemedicine-What kinds of patients can use-

Tomoka Kataoka

St.Marianna University School of Medicine, Japan

StP-05-3 Awarenesses of telemedicine before and after COVID19 pandemic

Mai Aida

St.Marianna University School of Medicine, Japan

StP-05-4 Analysis for relationship of abnormal glycogen storage in HOIL-1L deficiency and Lafora disease

Ran Fujimoto

Department of Molecular and Cellular Physiology, Graduate School of Medicine, Kyoto University, Kyoto, Japan
