

Oral Presentation Award Nominee Session

Chair : Jun-ichi Kira

Translational Neuroscience Center, Graduate School of Medicine, International University of Health and Welfare, Japan

-
- ★ StO-01-1 Duration and clinical subtype of recurrent ischemic stroke
Saeko Adachi
Department of Medicine, Kyoto Prefectural University of Medicine, Japan
-
- ★ StO-01-2 Functional mapping of semantic processing in epilepsy surgery
Ryoko Sugawara
Department of Neurology, Kyoto University Graduate School of Medicine, Japan
-
- ★ StO-01-3 Anxiety-related brain network alteration in Parkinson's disease
- A resting-state fMRI study
Reo Asada
Department of Integrated Neuroanatomy and Neuroimaging, Kyoto University Graduate School of Medicine, Kyoto, Japan
-
- ★ StO-01-4 Pitavastatin reduces tau oligomers via autophagy activation
Ryota Yamamoto
Department of Neurology, university of Fukui, Japan
-
- ★ StO-01-5 The time-series proteome profiles in extracellular vesicles derived from body fluids of ALS patients
Chris Kato
Department of Physiology, Keio University School of Medicine, Japan
-
- ★ StO-01-6 Variant filtering from exome sequencing of ALS patients by phenotype-based prioritization
Shoma Yamsuchi
Department of Medical Genetics Tokushima University Graduate School of Biomedical Sciences, Japan
-
- ★ StO-01-7 Gait, cognitive function, and the volumes of brain regions/white matter lesions in elderly residents
Tomoaki Muramatsu
Department of Medicine, Yamagata University School of Medicine, Japan
-

Cerebrovascular disease

Chair : Yukio Ando

Department of Amyloidosis Research, Nagasaki International University, Japan

-
- StO-02-1 Usefulness of RC"B"S score:
differentiating RCVS from thunderclap headache
Harumi Naoi
The Jikei University School of Medicine, TOKYO, Japan
-

StO-02-2 Cardiopulmonary arrest during therapy for stroke in vertebral artery with atlantoaxial subluxation

Risa Kawana

General Education Center, Kyorin University Hospital, Japan

StO-02-3 Poor prognosis in middle-aged pontine hemorrhage without hypertension therapy before onset

Natsuho Shindo

Kyorin University Hospital General Education Center, Japan

StO-02-4 Cryptogenic stroke caused by mechanical stimulation to angiectopia of vertebral artery

Reona Miwa

Kyorin University Hospital General Education Center, Japan

StO-02-5 Four cases of Ischemic Stroke after pulmonary resection

Riku Toba

Department of Neurology, Iwate Prefectural Central Hospital, Japan

StO-02-6 withdrawn

StO-03 Students and Junior Residents Oral Session 03

Jp

June 3 (Sat) 10 : 15 ~ 11 : 00 Room 06 (Makuhari Messe International Conference Hall 3F 302)

Muscle diseases, Peripheral neuropath, Neuroinfection

Chair : Makoto Matsui

Houju Memorial Hospital, Japan

StO-03-1 a case of facioscapulohumeral muscular dystrophy (FSHD) treated as dermatomyositis: a case report

Tetsuo Gondo

Division of Neurology, Kobe University Graduate School of Medicine, Japan

StO-03-2 Oculopharyngodistal myopathy with CGG repeat expansions in GIPC1: a case report

Shuntaro Nakamura

Department of Neurology, Japanese Red Cross Asahikawa Hospital, Japan

StO-03-3 Nonsecretory multiple myeloma-associated POEMS syndrome successfully treated by daratumumab

Kai Yoshizawa

Department of Neurology, Shinshu University School of Medicine, Japan

StO-03-4 Diagnosis of neuro-infectious disease used by multiplex PCR meningitis/encephalitis panel

Akihiro Kida

Department of Neurology and Stroke Treatment, Japanese Red Cross Kyoto Daiichi Hospital, Kyoto, Japan

StO-03-5 Loxoprofen-induced aseptic meningitis

Yumi Kimura

Kawasaki Medical School General Medical Center, Japan

StO-03-6 A post-mortem case with involvements in CNS by COVID-19 infection
Yudai Tanaka
Fukui General Hospital, Japan

StO-04 Students and Junior Residents Oral Session 04

Jp • En

June 3 (Sat) 11:05 ~ 11:45 Room 04 (Makuhari Messe International Conference Hall 3F 301)

Neurodegenerative disease, Headache, Sports, etc...

Chair : Koichi Hirata
Dokkyo Medical University, Japan

StO-04-1 Usefulness of MRI midbrain anteroposterior diameter measurement
in progressive supranuclear palsy
Hirotaka Nomiya
Second Department of Internal Medicine, Faculty of Medical Sciences, University of Fukui,
Fukui, Japan., Japan / Department of Biochemistry and Cell Biology, Faculty of Medical
Sciences, University of Fukui, Japan

StO-04-2 Analysis of localization of SCA6 polyQ inclusions in SCA6 knock-in
mouse model
Di Wang
Department of Personalized Genomic Medicine for Health, Graduate School, Tokyo Medical and
Dental University, Japan / Department of Pathological Cell Biology, Medical Research Institute,
Tokyo Medical and Dental University, Japan

StO-04-3 Predictive factors for response to anti-CGRP monoclonal antibodies
in patients with migraine
Keiko Ihara
Department of Neurology, Keio University School of Medicine, Japan

StO-04-4 Pathological analysis of Yips in Kyudo(Motare):
Electrophysiological analysis
Taichi Ogiso
Gifu University School of Medicine, Japan

StO-04-5 Cryopyrin-associated periodic syndrome: Important points for
Neurologists to diagnose
Mizuki Takahashi
Department of Neurology, Nagaoka Red Cross Hospital, Japan

StO-05 Students and Junior Residents Oral Session 05

Jp • En

June 3 (Sat) 11:00 ~ 11:45 Room 05 (Makuhari Messe International Conference Hall 3F 304)

Parkinsonism and Related disorders, SBMA, etc...

Chair : Masahito Yamada
Kudanzaka Hospital, Japan

StO-05-1 Genetic risk assessment of common neurological diseases
Shichen Chang
Department of Personalized Genomic Medicine for Health, Graduate School, Tokyo Medical and
Dental University, Japan

StO-05-2 Association of neuroimaging and neuropsychology in right temporal variant frontotemporal dementia

Yuta Komori

Department of Neurology, Tokyo Metropolitan Geriatric Hospital, Japan

StO-05-3 ~~Orthostatic hypotension associated with central diabetes insipidus after diabetic ketoacidosis~~

~~Shuya Nishizawa~~

~~The Jikei University School of Medicine, Japan~~

取り下げ演題

StO-05-4 Questionnaire resurvey of 17 patients with advanced Okinawa-type neurogenic muscular atrophy (HMSN-P)

Ryosuke Sakamoto

St. Mary's Hospital, Japan

StO-05-5 Sensory disturbance and cerebellar ataxia in adult-onset NOTCH2NLC-related NIID

Kai Funakawa

Department of Neurology, Tokyo Metropolitan Geriatric Hospital, Japan

StO-06 Students and Junior Residents Oral Session 06

Jp

June 3 (Sat) 11:00 ~ 11:45 Room 06 (Makuhari Messe International Conference Hall 3F 302)

Neuroimmunology, Peripheral neuropath, Metabolic disorders

Chair : Susumu Kusunoki

Japan Community Health care Organization, Japan

StO-06-1 A case of myasthenia gravis crisis triggered by COVID-19

Hayata Suzuki

Kobe University, Japan

StO-06-2 Membrane-bound BAFF expressing monocytes decrease inhibitory molecule expressions during activation

Yuka Tagawa

Kobe University, Japan

StO-06-3 Analysis of SARS-CoV-2 antibodies after the 2nd vaccine in Japanese patients with CNS demyelinating

Kouichirou Suzuki

School of Medicine Chiba University, Japan

StO-06-4 Guillain-Barré syndrome associated with COVID-19: a case report

Miki Hamamoto

Division of Neurology, Kobe University, Japan

StO-06-5 A case of Guillain-Barré syndrome following anti-GD1b antibody-positive Edwardsiella tarda enteritis

Yuma Kobayashi

Chiba University School of Medicine, Japan

StO-06-6

Radiological and pathological analysis of MERS related to hypoglycemia

Midori Ueda

Department of Clinical resident, Fukui General Hospital, Japan

Poster Presentation Award Nominee Session

Chair : Hidekazu Tomimoto

Graduate School of Medicine, Mie University/Saiseikai Meiwa hospital, Japan

- ★ StP-01-1 Pure cerebellar infarction; 4 cases Claude syndrome and Werneck's Commissure Syndrome
Aoi Hozumi
Department of Neurology South Miyagi Medical Center, Japan
- ★ StP-01-2 A novel de novo disease-causing variant in ATLL in a pediatric patient with spastic paraplegia
Ayumi Nakamura
Department of Neurology, Graduate School of Medicine, The University of Tokyo, Japan
- ★ StP-01-3 Randomness of gait in Parkinson's disease and idiopathic normal pressure hydrocephalus
Sho Suzuki
Department of Informatics and Electronics, Graduate school of Science and Engineering, Yamagata University, Yonezawa, Japan
- ★ StP-01-4 Efficacy of anti-IL-5 antibody against peripheral neuropathy in EGPA
Shiori Morimura
5th grade medical student in St. Marianna University School of Medicine, Japan
- ★ StP-01-5 Long-term effects after the creation of the in-hospital stroke action team: iSAT
Mana Udagawa
5th grade medical student in St. Marianna University School of Medicine, Japan
- ★ StP-01-6 Brain distribution of oligonucleotide therapeutics by intranasal administration
Shota Yamamoto
Department of Neurology and Neurological Science, Tokyo Medical and Dental University, Japan

Cerebrovascular disease, Parkinsonism and Related disorders

Chair : Shigeki Yamaguchi

Yokohama Municipal Citizen's Hospital, Japan

- StP-02-1 Functional recovery during the chronic phase after cerebral infarction via glymphatic system
Hai-bin Xu
Department of Neurology, Juntendo University School of Medicine, Tokyo, Japan

StP-02-2 Magnetic resonance imaging features of V180I genetic Creutzfeldt-Jakob disease

Yuki Muroga

School of Medicine, Chiba University, Japan

StP-02-3 Association of Behavioral Psychological Symptoms and Cognitive Function in Alzheimer's Disease

Yu Kikuchi

School of Medicine, Chiba University, Japan

StP-02-4 Behavioral psychological symptoms in dementia with Lewy bodies: comparing with Alzheimer's disease

Kotomi Furukawa

School of Medicine, Chiba University, Japan

StP-02-5 Decreased Intestinal Flora Production Vitamin Alters the Intestinal Microbiota in Lewy Body Disease

Karin Ozeki

Department of Pathophysiological Laboratory Sciences, Nagoya University Graduate School of Medicine, Japan

StP-02-6 Executive function screened by key search test in older community inhabitants

Hiroki Yokose

Yamagata University School of Medicine, Japan

StP-03 Students and Junior Residents Poster Session 03

Jp

June 3 (Sat) 13 : 15 ~ 14 : 35 Poster Session (Makuhari Messe International Exhibition Hall 1F Exhibition Hall 7)

Neuroimmunology, Peripheral neuropath

Chair : Ayumi Uchibori

Department of neurology, Kyorin University, Japan

StP-03-1 A case of recurrent hemorrhagic longitudinally extensive transverse myelitis

Takahito Hariu

Department of Neurology, Shinmatsudo Chuo General Hospital, Japan

StP-03-2 A study of a case of refractory myasthenia gravis introduced with efgartigimod at our hospital

Yusuke Kuroda

NHO Sendai Medical Center the neurology department, Japan

StP-03-3 A case of APS type3 with MS who developed T1DM triggered by the COVID-19 vaccine

Asaki Tsuru

Department of Neurology, Kita-harima Medical Center, Japan

StP-03-4 Fisher syndrome with acute oropharyngeal palsy of Guillain-Barre syndrome complicated by SIADH

Masahiro Yamamoto

Department of Neurology, Iwate Prefectural Central Hospital, Japan

StP-03-5

A case of vitamin B12 deficiency neuropathy with hypocalcemia due to hikikomori

Megumi Kubota

Department of Neurology, Aizawa Hospital, Japan

3
