

MSO-01 Medical Staff Award Nominee Session**Jp**

June 1 (Sat) 8:00 ~ 9:30

Room 09 (Glass Building 7F G701)

Chair : Akira Inaba

Division of Neurology, Kanto Central Hospital, Japan

- ★ **MSO-01-1** Causes and ameliorating factors of gait disturbance in POEMS syndrome

Takeru Nara

Chiba University Hospital Department of Rehabilitation Medicine, Japan / Chiba University Department of Neurology, Japan

- ★ **MSO-01-2** Effect of trunk function training on gait ability in Combination with high-Frequency rTMS

Akihiro Ikuta

Department of Physical Therapy, Nagoya City Rehabilitation Center, Japan / Department of Rehabilitation, Nagoya City University, Japan

- ★ **MSO-01-3** Weight gain following tube feeding is associated with long survival in amyotrophic lateral sclerosis

Chiharu Matsuda

Unit for Intractable Disease Nursing Care, Tokyo Metropolitan Institute of Medical Science, Japan

- ★ **MSO-01-4** Delivering bad news in amyotrophic lateral sclerosis and health care disparity in Asia and Oceania

Miki Yoshitake

Department of Neurology, Graduate School of Medicine, Chiba university, Japan / Department of Neurology, Juntendo university hospital, Japan

- ★ **MSO-01-5** Subjective Cognitive Decline in patients with Parkinson's disease

Aya Kumon

Department of Neurology, National Hospital Organization, Sagami-hara National Hospital, Japan / Department of Neurology, Kawashima neurological clinic, Japan

- ★ **MSO-01-6** Visuoperceptual disturbances in Parkinson's disease detected by the Incomplete Letters test

Reiko Ohdake

Department of Neurology, Fujita Health University School of Medicine, Japan

MSP-01 Medical Staff Poster Session 01**Jp**

May 31 (Fri) 17:15 ~ 18:35

Poster Session (E Block B2F Hall E)

Cerebrovascular disease: Support

Chair : Yoshihiko Nakazato

Department of Neurology, Saitama Medical University, Japan

- MSP-01-1** Malnutrition state is associated with complications in tube feeding after acute ischemic stroke

Mayu Sasaki

Division of Nutrition management, Sendai City Hospital, Japan

31

1

Medical Staff Session

- MSP-01-2** Nutritional management protocol of stroke care unit
Toyohiko Nakabayashi
st.marianna university hospital, Japan
- MSP-01-3** A case of somato-cognitive coordination therapy enhancing gait function in Wallenberg syndrome
Yuya Ishibashi
mediVR Rehabilitation Center Tokyo, Japan
- MSP-01-4** Effectiveness of VR-guided Somato-Cognitive Coordination Therapy for Post-Stroke Dysarthria
Haruka Sugiyama
mediVR Rehabilitation Center Tokyo, Japan
- MSP-01-5** Changes in oral environment of stroke patients after convalescence
Asuka Nishida
SUISEIKAI KAZIKAWA HOSPITAL, Japan
- MSP-01-6** withdrawn
- MSP-01-7** Serial changes in electroretinogram after recanalization for internal carotid artery stenosis
Koji Takahashi
Division of Clinical Laboratory, Yokohama Brain and Spine Center, Japan

MSP-02 Medical Staff Poster Session 02

Jp

May 31 (Fri) 17 : 15 ~ 18 : 35

Poster Session (E Block B2F Hall E)

Neurorehabilitation 1: Cerebrovascular disease

Chair : Yoshitomo Sato
Iwate Rehabilitation Center, Japan

- MSP-02-1** A program of resuming riding on a bicycle in patients with cerebrovascular disease:case series
Motoko Tsunemi
local incorporated administrative agency Suita Municipal Hospital, Japan
- MSP-02-2** A case with various dissection syndromes due to right corpus callosum lesion
Yoshimi Sasahara
Department of Rehabilitation,Nagasaki Kita Hospital, Japan
- MSP-02-3** Mental rehabili for a case after cerebral infarction in which anxiety and the DMN was activated
Ryuya Yano
shonan chuo hospital, Japan
- MSP-02-4** A case of unilateral spatial neglect improved by VR-based somato-cognitive coordination therapy
Hiromi Mori
mediVR Rehabilitation Center Osaka, Japan

MSP-02-5 False response analysis of a case with spatial agraphia after right temporoparietal lobe hemorrhage

Chie Tani

Social medical corporation Shunkaikai Nagasaki north hospital Comprehensive rehabilitation department, Japan

MSP-02-6 Three stroke cases enabled orthotic device simplification by Somato-Cognitive Coordination Therapy

Ryo Ueda

mediVR Rehabilitation Center Osaka, Japan

MSP-02-7 Changes in self-care behavior of patients with mild cerebral infarction by lifestyle guidance

Chiharu Nakamura

Sunagawa City Hospital Neurology Center, Japan

MSP-03 Medical Staff Poster Session 03

Jp

May 31 (Fri) 17 : 15 ~ 18 : 35

Poster Session (E Block B2F Hall E)

Parkinsonism and Related disorders: Support 1

Chair : Masayoshi Kusumi

San-in Rosai Hospital, Japan

MSP-03-1 Survey on the management of neurological disorders in hospitals lacking full-time neurologists

Nobutaka Yokouchi

Department of Welfare and Medical Intelligence, Chiba University Hospital, Chiba, Japan

MSP-03-2 Efforts to cooperate with other occupations against Parkinson's disease in Nursing home

Miyu Egawa

Resora nursinghome suzuka, Japan

MSP-03-3 Pharmacist's Role in Parkinson's Disease in a Serviced Elderly Residence

Kosuke Kanamaru

Hori Pharmacy, Japan

MSP-03-4 Investigation of inpatient clinical path operation for introduction of foslevodopa/foscarbidopa

Yukiko Urushido

Nursing Section Juntendo University Hospital, Japan

MSP-03-5 Domain specific cognitive impairment in Parkinson's patients with mild cognitive impairment

Yugo Ito

Juntendo University Hospital Department of Neurology, Japan

MSP-03-6 Examination about the fine-view memory in patients with Parkinson's disease

Midori Sagawa

Sagamihara National Hosoiital, Japan

Neurorehabilitation 2: Parkinsonism and Related disorders 1

Chair : Nobue K. Iwata

International University of Health and Welfare, Mita Hospital, Japan

MSP-04-1 Parkinson's case: Evaluated therapy impact on posture via 2D motion analysis

Takahiro Kanda

Nanwa Regional Medical Organization Minami-Nara General Medical Center, Japan

MSP-04-2 Clinical characteristics of Parkinson-related disorders requiring chronic care hospitalization

Takashi Terao

Department of Rehabilitation, National Hospital Organization Hyogo-Chuo Hospital, Japan

MSP-04-3 The effect of vibration stimulation to the triceps surae on walking in Parkinson's disease patients

Kenta Funakoshi

Nagara clinic, Japan

MSP-04-4 Relation between effects of LSVT-BIG and severity of anxiety or depression

Noboru Higuchi

Department of Rehabilitation, JA Nagano Koseiren Kakeyu-Misayama Rehabilitation Center Kakeyu Hospital, Japan

MSP-04-5 Effects of short-term intensive rehabilitation for Parkinson's disease

Tomoki Shinike

General Incorporated Foundations Miyakeigakukenyusyo Miyake rehabilitation hospital, Japan

MSP-04-6 Backward walking is associated with falls in patients with progressive supranuclear palsy

Naomi Matsuda

Department of Rehabilitation, NHO Higashinagoya National Hospital, Japan

Neurorehabilitation 3

Chair : Ichiro Miyai

Department of Neurology, Morinomiya Hospital, Japan

MSP-05-1 Young rhabdomyolysis patient with high CK returned to work post-rehab

Keita Ishii

Department of Rehabilitation, Shizuoka Hospital, Juntendo University School of Medicine, Japan

- MSP-05-2** Two Cases of Severe Cerebral Palsy Improved by VR-Based Somato-Cognitive Coordination Therapy
Kyoko Nakaue
mediVR Rehabilitation Center Osaka, Japan
- MSP-05-3** Successful Case of Home-Based Somato-Cognitive Coordination Therapy For Pediatric Acute Cerebellitis
Takumi Okada
mediVR Rehabilitation Center Osaka, Japan
- MSP-05-4** A study of gait training using HAL® for SBMA and its effectiveness evaluation index
Takahiro Horikawa
Department of Rehabilitation, Ichinomiya-Nishi Hospital, Japan
- MSP-05-5** Consideration of the usefulness of DrumCircle in Neurology Rehabilitation hospital
Hiroaki Toyodome
medical corporation sansyuukai okatsu hospital rehabilitation department, Japan
- MSP-05-6** Effect of somato-cognitive coordination therapy focusing on abnormal brain processes in chronic pain
Masato Araki
mediVR Rehabilitation Center Osaka, Japan

MSP-06 Medical Staff Poster Session 06

Jp

May 31 (Fri) 17 : 15 ~ 18 : 35

Poster Session (E Block B2F Hall E)

Intractable neurological diseases: Support 1

Chair : Kumiko Michizono
Kagoshima University Hospital, Japan

- MSP-06-1** Seven Developmental Coordination Disorder Cases Improved with Somato-Cognitive Coordination Therapy
Tomomi Wagatsuma
mediVR Rehabilitation Center Tokyo, Japan
- MSP-06-2** Investigation of factors related to the effectiveness of gait training with HAL® in SBMA
Tsuayoshi Gotou
Department of Rehabilitation, Ichinomiya-Nishi Hospital, Japan
- MSP-06-3** Problems of nursing & medical treatment for the patients with neurological diseases in nursing homes
Mari Morii
Hekisuikai Medical Corporation Minamimasuo Clinic, Japan
- MSP-06-4** Resilience and related factors in patients with neuromuscular diseases and key persons
Maika Sakou
NHO Omuta National Hospital, Japan

MSP-06-5 Discharge support for patients with GRUT-IDS, encephalopathy, cervical cord injury, and respirator

Shinobu Akiba

Japanese Red Cross Narita Hospital, Japan

MSP-06-6 Survey of Nutritional Status of Inpatients at a Hospital Specializing in Neuromuscular Diseases

Tomoo Ogino

Department of Speech-Language Pathology, National Hospital Organization Utano National Hospital, Japan

MSP-07 Medical Staff Poster Session 07

Jp

June 1 (Sat) 13 : 15 ~ 14 : 35

Poster Session (E Block B2F Hall E)

Dementia: Support

Chair : **Hiroaki Tanaka**

Tokyo Metropolitan Ohtsuka hospital, Department of Neurology, Japan

MSP-07-1 A preliminary survey of psychological tests administered by psychologists in practice of dementia

Izumi Kuratsubo

Innovation Center for Translational Research, National Center for Geriatrics and Gerontology, Japan

MSP-07-2 Effectiveness of Somato-Cognitive Coordination Therapy Using VR for Higher Brain Dysfunction

Yuichiro Murakawa

mediVR Rehabilitation Center Osaka, Japan / mediVR Rehabilitation Center Tokyo, Japan / Department of Human Health Science, Kyoto University Graduate School of Medicine, Japan

MSP-07-3 Effects of in-hospital day care for older adults with dementia at our hospital

Kaori Hatakeyama

Niigata Prefectural Shibata Hospital, Japan

MSP-07-4 Facilitation of Team Collaboration by Medical Assistants: A Case Study

Manami Hataguro

Department of Neurosurgery, Hiroshima Prefectural Hospital, Japan

MSP-07-5 Characteristics of patients hospitalized with COVID-19 who received dementia care team intervention

Kaori Yanagida

Department of nursing, Tokyo Rosai Hospital, Japan

MSP-07-6 SLTA and CSF biomarkers analysis in a patient suspected of PPA upon detailed testing for memory loss

Akito Tsugawa

Department of Geriatric Medicine, Tokyo Medical University, Japan

Parkinsonism and Related disorders: Support 2

Chair : Kenji Maruyama

Department of Neurology, Toda Central General Hospital, Japan

MSP-08-1 Outpatient Nursing Support Based on Multidisciplinary Collaboration for Parkinson's Patients

Miyuki Doi

Kobe City Medical Center General Hospital Nursing Department, Japan

MSP-08-2 Evaluation of duration of treatment after switching to rasagiline in selegiline-intolerant patients

Kyohei Yamamoto

Department of Pharmacy Anjo Kosei Hospital, Japan

MSP-08-3 Survey on understanding level of LCIG among nurses

Manatsu Yamaguchi

Nursing Department, Izumi-city General Hospital, Japan

MSP-08-4 Quality of Life in Parkinson's Disease Patients Introduced to Foslevodopa/Foscarbidopa

Chihiro Abe

Juntendo University Hospital, Japan

MSP-08-5 Appropriate injection site selection and patient education for foslevodopa/foscarbidopa therapy

Junko Shinada

Nursing Section Juntendo University Hospital, Japan

MSP-08-6 Investigating the utility of in-hospital monitoring for patients with PD using digital devices

Makoto Sawada

School of Physical Therapy, Faculty of Rehabilitation, Reiwa Health Sciences University, Japan

Neurorehabilitation 4: Parkinsonism and Related disorders 2

Chair : Kazuko Saita

NHO Miyazakihigashi Hospital, Japan

MSP-09-1 Changes in motor function before and after LSVT®-BIG and 6 months after LSVT®-BIG

Daiki Usuda

Department of Rehabilitation, JA Nagano Koseiren Kakeyu-Misayama Rehabilitation Center Kakeyu Hospital, Japan

MSP-09-2 Characteristics of exacerbating factors in Parkinson's disease patients with low back pain

Kengo Nojima

Kumamoto southern regional hospital, Japan

MSP-09-3 Characteristic of upper limb freezing of in Parkinson's disease

Ayaka Matsuyama

Fujita neurology department hospital, Japan

MSP-09-4 Effect of SPIDER-Based Exercise Therapy on Posture in Patients with Parkinson's Disease

Yuki Soutome

Department of Rehabilitation, Geriatric Health Services Facility, Caretown Yuyu, Japan

MSP-09-5 Effects of short-term outpatient rehabilitation on non-motor symptoms of Parkinson's disease

Mai Yamada

Nagasaki KitaHospital Department of Rehabilitation, Japan

MSP-09-6 Effects of rehabilitation treatment using Virtual Reality(VR) for Parkinson's disease patients

Masahiro Maruyama

Local Independent Administrative Agency Nagano Municipal Hospital, Japan

MSP-10 Medical Staff Poster Session 10

Jp

June 1 (Sat) 13 : 15 ~ 14 : 35

Poster Session (E Block B2F Hall E)

Motor neuron disease: ALS (Support)

Chair : Yutaka Kohno

Ibaraki Prefectural University of Health Sciences, Japan

MSP-10-1 Decision making support promotes home care for an older ALS patient and even older caregiver

Kazuma Saka

Nursing Department, NHO Minami Kyoto Hospital, Japan

MSP-10-2 Longitudinal Changes in Body Composition and Motor Function in Amyotrophic Lateral Sclerosis

Shinichiro Sawano

Department of Rehabilitation Medicine Shiga University of Medical Science Hospital, Japan

MSP-10-3 Indicators of decreased food intake in patients with common ALS

Etsuko Yamamoto

Saitama Medical University Hospital Department of Rehabilitation Medicine, Japan

MSP-10-4 Amyotrophic Lateral Sclerosis Case Successfully Treated by Somato-Cognitive Coordination Therapy

Yoshiya Fujika

mediVR Rehabilitation Center Tokyo, Japan

MSP-10-5 To support making regarding medical care:Roles of each profession and methods of information sharing

Akiko Furuta

Osaka Tondabayashi Public Health center, Japan

MSP-10-6 Patient's Thoughts and Nursing Support in the Diagnosis Phase of Familial ALS

Mami Sakai

Kyushu University Hospital, Japan

MSP-11 Medical Staff Poster Session 11

Jp

June 1 (Sat) 13 : 15 ~ 14 : 35

Poster Session (E Block B2F Hall E)

Neurorehabilitation 5

Chair : Aki Sato

Dept. Neurology, NHO Niigata National Hospital, Japan

MSP-11-1 Effects of Somato-Cognitive Coordination Therapy on Daily Activities in Patients with MSA and SCD

Yuki Torikai

mediVR Rehabilitation Center Tokyo, Japan

MSP-11-2 A case of MSA was intensive rehabilitation in conjunction with immunoadsorption therapy

Miki Kawaharabashi

Imakiire general Hospital, Japan

MSP-11-3 Swallowing videofluorography for patients with multiple system atrophy

Asuka Higuchi

Department of Rehabilitation, JA Nagano Koseiren Kakeyu-Misayama Rehabilitation Center Kakeyu Hospital, Japan

MSP-11-4 A case of myasthenia gravis with early detection of progressive symptoms by self-cough peak flow

Natsumi Arai

Chiba University Hospital Department of Rehabilitation Medicine, Japan

MSP-11-5 Experience of exercise therapy from the acute phase in Fisher/Guillain-Barré syndrome overlap case

Tomonobu Iguchi

NHO Mito Medical Center, Japan

MSP-11-6 Approach of acute rehabilitation to patients with Guillain-Barré syndrome

Goichi Hashida

Department of Rehabilitation, Osaka University Medical Hospital, Japan

MSP-11-7 Characteristics of rehabilitation in multiple system atrophy and pure cerebellar degeneration
Toshiya Shimamoto
Kumamoto southern regional hospital, Japan / Department of Neurology, Kumamoto University, Japan

MSP-12 Medical Staff Poster Session 12

Jp

June 1 (Sat) 13:15 ~ 14:35

Poster Session (E Block B2F Hall E)

Intractable neurological diseases: Support 2

Chair : Takashi Naka
Higashiosaka City Medical Center, Japan

MSP-12-1 Continuous approaches for ensuring the safety of long-term video-EEG monitoring
Yuki Yabuta
Department of Nursing, Kobe University Hospital, Japan

MSP-12-2 Evaluation of QOL changes after interview interventions: A preparatory report in multiple sclerosis
Michiko Nei
TOHOKU MEDICAL AND PHARMACEUTICAL UNIVERSITY HOSPITAL, Japan

MSP-12-3 Autoimmune Encephalitis with Attention Dysfunction Treated by Somato-Cognitive Coordination Therapy
Shotaro Sugita
mediVR Rehabilitation Center Tokyo, Japan

MSP-12-4 Standard values of ultrasound nerve-CSA for comprehensive evaluation of somatic and autonomic nerves
Osamu Tanaka
Division of Clinical Laboratory, Yokohama Brain and Spine Center, Japan

MSP-12-5 Disclosure of information related to human postmortem brain research and brain donation registry
Maki Obata
Brain Bank for Aging Research, Tokyo Metropolitan Institute for Geriatrics and Gerontology, Japan

MSP-13 Medical Staff Poster Session 13

Jp

June 1 (Sat) 13:15 ~ 14:35

Poster Session (E Block B2F Hall E)

Clinical Examination

Chair : Takahiro Nakayama
Department of Neurology, Division of Neuromuscular Diseases, Yokohama Rosai Hospital, Japan

MSP-13-1 The relationship between the disease duration and the incidence of NCS abnormalities in DM patients
Akira Kamida
Department of Clinical Laboratory, Ehime Prefectural Niihama Hospital, Japan

MSP-13-2 Electroencephalography artifacts related to Swan-Ganz catheter
Yuri Takahashi
Department of Clinical Laboratory The University of Tokyo Hospital, Japan

MSP-13-3 Objective detection of optic nerve damage using VEP and OCT
Miki Oka
Clinical Laboratory, Fukuoka Central Hospital, Japan

MSP-13-4 Somatosensory-vestibular interaction: pelvic girdle
Hiroya Hara
Division of Clinical Laboratory, Yokohama Brain and Spine Center, Japan

MSP-13-5 Difference of laterality in motor cortical function measured by TMS recording from the lower limbs
Ryota Kuroiwa
Division of Rehabilitation Medicine, Chiba University Hospital, Japan / Department of Neurology, Graduate School of Medicine, Chiba University, Japan
