

Oral Presentation Award Nominee Session

Chair : Gen Sobue

Aichi Medical University, Japan

- 1
- ★ StO-01-1 Human iPSC model with mutant D-amino acid oxidase (DAO) using CRISPR-Cas system
Hiroya Kobayashi
Department of Physiology, Keio University School of Medicine, Japan
- ★ StO-01-2 The relationships of CSF sTREM2 with the indicators of CNS and peripheral inflammation in PD
Kazuki Nawashiro
Department of Neurology, Fujita Health University School of Medicine, Japan
- ★ StO-01-3 3D neuromelanin imaging in Parkinson's disease, its analysis method and usefulness
Ai Hanawa
Mie University Faculty of Medicine, Japan
- ★ StO-01-4 DASC-21 Utility in Distinguishing Mild Cognitive Impairment from Subjective Cognitive Decline
Kana Fukunaga
School of Medicine, Kyoto Prefectural University of Medicine, Japan
- ★ StO-01-5 Disparity of cholesterol metabolism in motor neurons and astrocytes, and ropinirole hydrochloride
Chris Kato
Department of Physiology, Keio University School of Medicine, Japan
- ★ StO-01-6 Follow-up study of 6 patients with advanced-stage Okinawa-type neurogenic muscular atrophy (HMSN-P)
Chisato Saito
St.Mary's Hospital, Japan

Cerebrovascular disease

Chair : Yasuhiro Hasegawa

Shin-Yurigaoka General Hospital, Japan

- StO-02-1 A case of intravenous rt-PA for stroke mimics during cancer treatment
Naotaka Yoshino
General Education Center, Kyorin University Hospital, Japan

- StO-02-2** A patient of young adult ischemic stroke due to extracranial internal carotid arteries spasm
Mikiko Sakaguchi
Kyorin University Hospital, Japan
- StO-02-3** Clinical outcome of patients with acute perforating artery infarction
Taichi Kimura
Kyoto prefectural university of medicine, Japan
- StO-02-4** Neurological outcome of inflammatory cerebral amyloid angiopathy
Ryusuke Takahashi
Tokyo Medical and Dental University Hospital, Japan
- StO-02-5** A case of cerebral venous sinus thrombosis leading to the diagnosis of Basedow's disease
Yuma Oda
Kyorin University Hospital General Education Center, Japan
- StO-02-6** Geriatric nutrition risk index at admission predicts oral intake recovery in acute ischemic stroke
Haruka Yakuwa
Division of Neurology, Sendai City Hospital, Japan
- StO-02-7** Swallowing rehabilitation for severe dysphagia is limited in acute ischemic stroke patients
Takuma Johno
Division of Neurology, Sendai City Hospital, Japan

StO-03 Students and Junior Residents Oral Session 03

Jp • En

June 1 (Sat) 8:00 ~ 8:40

Room 15 (Glass Building 5F G510)

Neuromuscular diseases and Peripheral neuropathy

Chair : Ryuji Kaji
Tokushima University, Japan

- StO-03-1** A case of Ocular Myasthenia Gravis Improved by Intravenous Methylprednisolone Pulse Therapy
Yuki Takenaka
Division of Neurology, Kobe University Graduate School of Medicine, Japan
- StO-03-2** A case of suspected Sporadic Late Onset Nemaline Myopathy presented with dyspnea on effort
Kazuho Fukuda
Division of Neurology, Kobe University Graduate School of Medicine, Japan
- StO-03-3** A case of anti-titin antibody positive inflammatory myopathy associated with myasthenia gravis
Erika Moriyasu
Medical Training center, Okayama University Hospital, Japan

StO-03-4 Head and neck muscle involvement in dysphagic inclusion body myositis

Yusuke Akitomi

Department of Neurology, Tokyo Metropolitan Institute for Geriatrics and Gerontology, Japan

StO-03-5 A case of spinal nerve root sarcoidosis diagnosed by neurophysiological study

Kotaro Omura

Division of Neurology, Kobe University Graduate School of Medicine, Japan

StO-04 Students and Junior Residents Oral Session 04

Jp

June 1 (Sat) 8:50 ~ 9:30

Room 14 (Glass Building 6F G610)

Miscellaneous

Chair : Akira Tamaoka

Department of Neurology, Tsukuba Memorial Hospital, Japan

StO-04-1 A case of Type II Alexander disease with acute exacerbation of motor impairment

Chisato Numa

Kobe University, Japan

StO-04-2 Modulatory effects of high-frequency electrical cortical stimulation on high-frequency oscillations

Koki Nishio

Department of Medicine, Faculty of Medicine, Kyoto University, Japan

StO-04-3 Which has a greater effect on migraine days (frequency), bedtime or waking time?

Hiroaki Yoshida

Department of Neurology, Kyoto Prefectural University of Medicine, Japan

StO-04-4 Cognitive decline is more prevalent in people without health check-up

Akane Sasaki

School of Medicine, Iwate Medical University, Japan

StO-04-5 Involvement of neurologists before and after surgical procedures for patients with PD

Lisa Nakano

Department of Neurology, Kyoto Prefectural University of Medicine, Japan

StO-05 Students and Junior Residents Oral Session 05

Jp

June 1 (Sat) 8:40 ~ 9:10

Room 15 (Glass Building 5F G510)

Neuroimmunology and Neuroinfection

Chair : Susumu Kusunoki

Kindai University, Japan

StO-05-1 Characteristics of peripheral neuropathy in neurosarcoidosis

Gen Yoshii

Department of Neurology, Tokyo Metropolitan Institute for Geriatrics and Gerontology, Japan

StO-05-2 Effects of disease-modifying treatments on COVID-19 infection in multiple sclerosis

Taisuke Ogawa

School of Medicine, Tohoku Medical and Pharmaceutical University, Sendai, Japan

StO-05-3 Adult-onset parechovirus meningitis-retention syndrome with various neurological disorders

Shuya Nishizawa

The Jikei University School of Medicine, Japan

StO-05-4 Creutzfeldt-Jakob disease, initially diagnosed as non-convulsive status epilepticus

Keita Yamada

Department of Neurology, University of Fukui, Japan

Poster Presentation Award Nominee Session

Chair : Takashi Kanda

Neuromuscular Center Yoshimizu Hospital, Japan

- 1
-
- ★ StP-01-1 Identification of DAGLB variants in Japanese Early-Onset Parkinson's Disease
Yue Luo
Department of Neurology, Faculty of Medicine, Juntendo University, Japan
-
- ★ StP-01-2 Elucidating the Molecular Mechanisms of Amyotrophic Lateral Sclerosis caused by a hnRNPA1 Mutation
Seifu Murata
Center for iPS Cell Research and Application (CiRA), Kyoto University, Japan
-
- ★ StP-01-3 Impact of gut microbiota on levodopa pharmacokinetics in patients with Parkinson's disease
Haruto Yamamoto
Department of Clinical Pharmacology and Therapeutics, Ehime University Graduate School of Medicine, Japan
-
- ★ StP-01-4 Pitavastatin reduces tau oligomers via autophagy activation
Ryota Yamamoto
Department of Neurology, Faculty of Medical Sciences, University of Fukui, Japan
-
- ★ StP-01-5 Neuroprotective effect of mesenchymal stem cell derived exosomes following focal cerebral ischemia
Shintaro Takada
Department of Neurology, Nippon Medical School, Japan
-
- ★ StP-01-6 Sarcopenia correlates with progression of Alzheimer's disease : structural and functional MRI study
Akari Aoshima
Kawasaki Medical School, Japan
-
- ★ StP-01-7 Proteomic analysis of blood exosomes for biomarkers of polyglutamine disease
Koki Kanamaru
Department of Science, Graduate School of Science and Engineering, Kindai University, Japan /
Department of Neurology, Faculty of Medicine, Kindai University, Japan

Cerebrovascular disease and Motor neuron disease (ALS)

Chair : Toshiki Mizuno

Kyoto Kuramaguchi Medical center, Japan

StP-02-1 Ischemic Stroke in Patients with Cancer: a Retrospective Study

Eiichiro Nagatani

Medical Faculty, Nippon Medical School, Japan

StP-02-2 Mirror-image crossed aphasia caused by a right frontal lobe infarction

Yuka Kato

Joetsu General Hospital, Japan

StP-02-3 Study on In-Hospital Stroke Prediction through Text Data Analysis of Electronic Health Records

Kio Mizoguchi

5th year medical student, St. Marianna University School of Medicine, Japan

StP-02-4 Multisystem proteinopathy possibly having neuromuscular junction failure: A case study

Mina Tsuzuki

Gifu University School of Medicine, Japan

StP-02-5 Analysis of motor neurons in patients with sporadic amyotrophic lateral sclerosis

Marino Akamatsu

Center for iPS Cell Research and Application (CiRA), Kyoto University, Japan / Faculty of Medicine, Kyoto University, Japan

StP-02-6 Analysis of motor neurons in patients with familial amyotrophic lateral sclerosis

Hana Suzuki

Center for iPS Cell Research and Application (CiRA), Kyoto University, Japan / Faculty of Medicine, Kyoto University, Japan

StP-03 Students and Junior Residents Poster Session 03**Dementia, Parkinsonism, and Related disorders**

Chair : Masahito Yamada

Kudanzaka Hospital, Japan

StP-03-1 Autopsy Case of Cognitive Decline and Parkinsonism with Clinical/Pathologic Discrepancy

Riku Saito

Tokyoteishin Hospital Neurology, Pathology, Japan

StP-03-2 Interpersonal gaming habits and dementia risk

Izuru Sato

School of Medical Sciences, University of Fukui, Japan

StP-03-3 Clinical Characteristics of Parkinson's Disease Patients with Olfactory Dysfunction and Constipation

Teppei Miyano

Yamagata University Faculty of Medicine, Japan

StP-03-4 A comparative study of quantitative imaging evaluation between iNPH and PSP

Mai Horikawa

Department of Geriatric Medicine, Tokyo Medical University, Japan

StP-03-5 Clinical characteristics of Japanese patients with ANO3 dystonia (DYT-ANO3)

Konoka Tachibana

Department of Neurology, Tokushima University Graduate School of Biomedical Sciences, Japan

StP-03-6 Long-read sequencing analysis of SCA6 with Parkinsonism

Urara Sasaki

Student, St. Marianna University School of Medicine, Japan

StP-04 Students and Junior Residents Poster Session 04**Jp**

June 1 (Sat) 13 : 15 ~ 14 : 35

Poster Session (E Block B2F Hall E)

Neuroimmunology, Neuromuscular diseases, Peripheral neuropathy, and Metabolic disorders

Chair : Makoto Matsui

Houju Memorial Hospital, Japan

StP-04-1 Case series of paraneoplastic sensorimotor neuropathy resembling Guillain-Barré Syndrome

Sogo Aoki

Nagoya City University Medical School, Japan

StP-04-2 Characteristics of patients with myasthenia gravis switched from Eculizumab to Ravulizumab

Kohei Morita

Sendai Medical Center, Japan

StP-04-3 A case of multiple sclerosis with long spinal cord lesions in the posterior and anterior funiculi

Urara Yasuda

Aizawa Hospital junior resident, Japan

StP-04-4 Clinical features of three cases of Immune-mediated necrotizing myopathy

Daiki Nomura

Department of Neurology, Niigata Prefectural Shibata Hospital, Japan

StP-04-5 A case of recurrent Guillain-Barre syndrome with repetitively evaluating anti-ganglioside antibodies

Tatsuya Saito

Department of Neurology, University of Yamanashi, Japan

StP-04-6 An Autopsy Case of HMG-CoA Lyase Deficiency with hyperammonemia and multiple organ failure
Daisuke Kudo
Department of Neurology and Neurological Science, Tokyo Medical and Dental University Hospital, Japan

StP-05 Students and Junior Residents Poster Session 05

Jp • En

June 1 (Sat) 13 : 15 ~ 14 : 35

Poster Session (E Block B2F Hall E)

Neuroinfection, Headache, etc.

Chair : Koichi Hirata
Dokkyo Medical University, Japan

StP-05-1 Four cases of neurosyphilis within a half-year in our hospital
Hidenori Sugiura
Department of Neurology, Hamamatsu Medical Center, Japan

StP-05-2 A case of varicella-zoster virus encephalitis with high levels of ADA in cerebrospinal fluid
Yuki Eda
Department of Neurology, Shinshu Ueda Medical Center, Japan

StP-05-3 Two cases of Creutzfeldt-Jakob disease with status epilepticus as an initial symptom
Yukari Matsuda
Higashiosaka City Medical Center, Japan

StP-05-4 How are CGRPmAbs used? Insights from a survey of the Japanese Headache Society members
Keiko Ihara
Department of Neurology, Keio University School of Medicine, Japan / Japanese Red Cross Ashikaga Hospital, Japan

StP-05-5 Grip strength, gait function, and brain regional volumes in the older community inhabitants
Kaho Morimoto
Department of Medicine, Yamagata University School of Medicine, Yamagata, Japan

StP-05-6 Two cases of primary central nervous system lymphoma in which CSF sIL-2R was useful for diagnosis
Kento Tabata
Clinical training center, Izumi-city General Hospital, Japan

StP-05-7 Clinical characteristics of Japanese patients with VPS16 dystonia (DYT-VPS16)
Shoma Yamauchi
Department of Medical Genetics Tokushima University Graduate School of Biomedical Sciences, Japan
